# WEBINAR

## Disbiose

04 de Maio de 2021

### Programa:

13:30 – 14:15 h - Microbiome and Dysbiosis: where are we?

14:15 – 14:30 h - Intervalo

14:30 – 15:15 h - Antibiotics, probiotics or fecal microbiota transplants - what should we do?

### Orador: Jan S. Suchodolski

Jan S. Suchodolski graduated with a veterinary degree from the University of Veterinary Medicine in Vienna, Austria. After working for several years in a small animal specialty clinic he returned to academia. In 2005, Dr. Suchodolski received his Ph.D. in Veterinary Microbiology from Texas A&M University for his work on molecular markers for the assessment of the intestinal microbiota. He is also board certified in immunology by the American College of Veterinary Microbiologists (ACVM). He currently serves as Professor and Associate Director for Research of the GI Lab.
